SOFT SKILLS

- Leadership:** Led 3 Nepalese cultural events, fostering a vibrant community experience.
- Teamwork:** Collaborated seamlessly in projects and competitions, achieving success through shared effort.
- Communication:** Captivated audiences with clear presentations, effectively conveying complex ideas in paper presentations.

PROFILE

I'm a second-year CSE student that is passionate about creating applications that have an impact. I code late into the night because I love the rush of making ideas come to life, whether it's via finding a solution to a practical issue or just providing consumers with an inventive and enjoyable experience. I'm constantly eager to pick up new abilities and technological know-how because I think the process of learning is just as significant as the final product. In my spare time, I enjoy reading science fiction, playing with new technology, and obsessing over the newest developments in technology. Let's get in touch and discuss everything tech!

PROJECTS

AMAZON AND YOUTUBE CLONING

- Developed a visually appealing and user-friendly clone of Amazon's homepage using semantic **HTML and CSS**, demonstrating a strong grasp of fundamental web development principles.
- Meticulously replicated Amazon's layout, design patterns, and visual hierarchy, showcasing attention to detail and design sensibility.
- Effectively applied CSS techniques for layout, typography, color schemes, and responsiveness, ensuring optimal cross-device compatibility.
- Built a well-structured and maintainable codebase, adhering to best practices in HTML and CSS coding.
- Employed specific CSS techniques (e.g., **flexbox**, grid) to achieve advanced layouts.
- Key Skills Demonstrated:**
 - HTML5
 - CSS3
 - Layout Design
 - Responsive Design
 - Cross-Browser Compatibility
 - Visual Consistency
 - User Experience (UX) Design
 - Attention to Detail

AWARDS AND CERTIFICATES

- Palo Alto Networks Certification:
 - Earned certification from Palo Alto Networks, demonstrating foundational knowledge in **cybersecurity concepts** and technologies.
 - Completed 9 hours of intensive training, covering areas like threat detection, network security, and firewall technologies.
- Git & GitHub Proficiency:
 - Expert in utilizing Git commands for **version control, including branching, merging, and conflict resolution**.
 - Successfully applied Git skills in **deploying the project**, streamlining collaboration and maintaining code revisions.
 - Leveraged GitHub for code hosting, issue tracking, and project visibility.
- DRDO Paper Presentation:
 - Presented a research paper on **PROTEIN FOLDING** at a prestigious event organized by DRDO, showcasing technical expertise and communication skills.
 - Received recognition for the paper, demonstrating the quality and relevance of your research.
 - Effectively communicated complex technical concepts to a diverse audience of 1500 students.

I hereby declare that the information provided in my resume is accurate and true to the best of my knowledge .
